

**M. Lachev**

## **A Catalog of the Bulgarian Metropolitans**

(Summary)

The catalog is a long-term research of the Metropolitans in the lands of Bulgaria, nevertheless due to the early death of Mitko Lachev remains unfinished. His colleges and friends S. Ivanova, R. Radkova and N. Danova gave “Historical Review” the manuscripts of the Catalog of the Bulgarian Metropolitans, which is now relatively completed and contains useful information necessary for further research.
