

**Boris Iliev**

**ONCE AGAIN ABOUT THE AUTHORIZATION LETTER NO. 3  
ISSUED BY LEVSKI ON 15TH OF NOVEMBER 1872**

(Summary)

The document in question was discovered for the scientists in three copies, unlike the analogical Authorization letters issued by Vasil Levski in the course of 1872, which were issued in two copies. Based on still scarcely studied data, the author poses some doubt to some already adopted opinions about the addressee and the originality of the drafts of this particular authorization letter No. 3 from 15th of November 1872.
