

Ana Raikova

**SCIENCE POLICY OF ACADEMICIAN DIMITAR KOSSEV ON THE
NATIONAL QUESTION**

(Summary)

Academician Dimitar Kosev is one of those Bulgarian historians who brought with them the patriotic enthusiasm from the time before World War II and welcomed the new Bulgarian hope expressed in the radical changes after the victory over fascism in Bulgaria and in the world. Acad. Kosev applied in his research territory the imposed “proletarian internationalism” selectively and carefully and avoiding direct confrontations, skillfully managed to be one of the first to carry into the new time the consistent bidding of Bulgarians on the national question and stand for it.
